**Subject:** Re: February OLSB -DMR

It calculates to be 5620%...(exceeds 500% came back on the processed with errors notification).

The main thing is to check to see that the Water Quality Monitoring Report which was attached with the DMR submitted 2/11/13 12:31 was processed. On that submission I reported "0% removal" and the notification I got back was that it was "Processed with Errors". It did not show up under the Completed list either.

Hi Jill,

Also, if -5620 really a percent?

Diane

Hi Jill,

Is this the one you are referring to?

Diane

**Subject:** February OLSB -DMR

Good Morning Diane,

I was on the netDMR website and noticed the DMR for January (due 2/20/13) is not recorded as

completed. This is the one that had me acknowledge we had a % removal <90%. It is in the not validated section. Let me know if I need to resent it.

Thank you!
